*Add-on features

Create, manage, group and share extensive contact data from browsers, mobile devices or desktop apps with individuals, groups or domains.

User friendly and intuitive browser-based calendar helps you create and share calendars with individuals or groups. It supports recurrence, invitations and alerts.

APT MAILING SOLUTION FOR ANY ENTERPRISE

Reduce Costs

e-Interact offers premium features at low operational costs. It goes beyond being an Exchange / Lotus replacement - it's a complete messaging platform.

It can even integrate & co-exist with Exchange / Lotus servers to offer a hybrid messaging solution.

Clutter Free Interface

User-friendly Ajax based webmail enables access to advanced messaging and collaboration features. The intuitive and user-friendly webmail is fully mobile compatible.

The web-based graphical admin interface is fast, clean & comprehensive.

Sync All Devices

One-click provisioning for iOS & Android.

Enter a new contact on your phone and have it appear instantly in Outlook and your webmail as well.

CLIENT QUOTE

Netcore's mailing solution is robust and scalable. It offers most of the features needed by an enterprise at really effective costs.
